S2401 OCCUPATION BY SEX FOR THE CIVILIAN EMPLOYED POPULATION 16 YEARS AND OVER  
2012-2016 American Community Survey 5-Year Estimates

**Note:** This is a modified view of the original table.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

**Tell us what you think.** Provide feedback to help make American Community Survey data more useful for you.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Peach County, Georgia				
	Total	Male	Percent Male	Female	Percent Female
	Estimate	Estimate	Estimate	Estimate	Estimate
Civilian employed population 16 years and over	11,115	5,833	52.5%	5,282	47.5%
Management, business, science, and arts occupations:	3,136	1,323	42.2%	1,813	57.8%
Management, business, and financial occupations:	1,238	753	60.8%	485	39.2%
Management occupations	934	605	64.8%	329	35.2%
Business and financial operations occupations	304	148	48.7%	156	51.3%
Computer, engineering, and science occupations:	322	226	70.2%	96	29.8%
Computer and mathematical occupations	47	33	70.2%	14	29.8%
Architecture and engineering occupations	203	160	78.8%	43	21.2%
Life, physical, and social science occupations	72	33	45.8%	39	54.2%
Education, legal, community service, arts, and media occupations:	1,054	304	28.8%	750	71.2%
Community and social services occupations	254	64	25.2%	190	74.8%
Legal occupations	34	6	17.6%	28	82.4%
Education, training, and library occupations	698	166	23.8%	532	76.2%
Arts, design, entertainment, sports, and media occupations	68	68	100.0%	0	0.0%
Healthcare practitioner and technical occupations:	522	40	7.7%	482	92.3%
Health diagnosing and treating practitioners and other technical occupations	379	40	10.6%	339	89.4%
Health technologists and technicians	143	0	0.0%	143	100.0%
Service occupations:	1,974	896	45.4%	1,078	54.6%
Healthcare support occupations	153	16	10.5%	137	89.5%
Protective service occupations:	228	188	82.5%	40	17.5%
Fire fighting and prevention, and other protective service workers including supervisors	76	54	71.1%	22	28.9%
Law enforcement workers including supervisors	152	134	88.2%	18	11.8%
Food preparation and serving related occupations	873	342	39.2%	531	60.8%
Building and grounds cleaning and maintenance occupations	375	247	65.9%	128	34.1%
Personal care and service occupations	345	103	29.9%	242	70.1%
Sales and office occupations:	2,552	671	26.3%	1,881	73.7%
Sales and related occupations	1,180	431	36.5%	749	63.5%
Office and administrative support occupations	1,372	240	17.5%	1,132	82.5%

Subject	Peach County, Georgia				
	Total	Male	Percent Male	Female	Percent Female
	Estimate	Estimate	Estimate	Estimate	Estimate
Natural resources, construction, and maintenance occupations:	2,175	1,969	90.5%	206	9.5%
Farming, fishing, and forestry occupations	266	220	82.7%	46	17.3%
Construction and extraction occupations	756	659	87.2%	97	12.8%
Installation, maintenance, and repair occupations	1,153	1,090	94.5%	63	5.5%

Construction and extraction occupations	3,897	3,612	92.7%	285	7.3%
Installation, maintenance, and repair occupations	6,134	5,792	94.4%	342	5.6%
Production, transportation, and material moving occupations:	9,272	6,897	74.4%	2,375	25.6%
Production occupations	5,359	3,584	66.9%	1,775	33.1%
Transportation occupations	2,081	1,762	84.7%	319	15.3%
Material moving occupations	1,832	1,551	84.7%	281	15.3%

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

While the 2012-2016 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
