\* Education statistics were provided by: The Governor's Office of Planning and Budget, Georgia Student Finance Commission, and the Georgia Department of Early Care and Learning. Capital Outlay statistics current thru FY2001. Sales, retailer commissions and prizes paid figures were generated from the GLC's Finance Department. Prizes processed at GLC District Offices are accounted for in the county where the district office is located. GSFC county classification information is limited to the most recent address submitted to GSFC. As such, GSFC does not have data to fully indicate total dollars for students by county. The most recent address on file does not necessarily indicate a student's county of origin, nor does it necessarily indicate an individual's current county of residence.
